ABOUT ME

Working as a web developer for me it is unlike any other job. It is a chance to discover new languages, such as JS, React, TypeScript, Python. However, working as a web developer, it is not all about code, it is more about problem solving.

I have more than 1 years of experience working in IT. The knowledge which I brought is unique, because it give me opportunity to make every project unique for client.

UNIVERSITY OF URGU OIL AND GAS
2020 - 2021

- **BASIC EDUCATION**
  this school located in my hometown Sochi, i finished 11 classes with rate 4.4 (maximum is 5), this school is unique, because there are lots of English classes there.

- **BACHELOR'S DEGREE**
  My mean subject was manager in oil and gas companies. there were two mean modules of study, it was science of energy and science of working with people.

- **MASTER'S DEGREE**
  My mean subject was operator in oil and gas flows. But i do not completely finished my education because during Covid-19 the education was online and quality of it was awful.
